Data sheet household washing machines

In acc. with delegated regulation (EU) No. 1061/2010

Miele			ſ	
Model name / identifier		WMR561 WPS		
Rated capacity ¹	kg	9,0		
Energy efficiency class				
A+++ (most efficient) to D (least efficient)		A+++		
Annual energy consumption (AE _c) ²	kWh/year	130		
Energy consumption of the standard "60°C				
cotton programme" at full load	kWh	0,80		
Energy consumption of the standard "60°C				
cotton programme" at partial load	kWh	0,50		
Energy consumption of the standard "40°C	1.) 6 //-	0.05		
cotton programme" at partial load Weighted power consumption in off-mode (P _o)	kWh W	0,35 0,10		
Weighted power consumption in the left-on	vv	0,10		
mode (P _i)	W	3,50		
Weighted annual water consumption $(AW_c)^3$	Litres/year	11.000		
Spin-drying efficiency class	Lilles/year	11.000		
A (most efficient) to G (least efficient)		А		
Maximum spin speed ⁴	1/min	1.600		
	%	44		
Remaining moisture content ⁴ Standard programme to which the information in	%			
standard programme to which the information in the label and the fiche relates 5		Cottons 60/40		
Programme time of the standard programme		with arrow		
60°C cotton programme (full load)	min	179		
60°C cotton programme (partial load)	min	179		
40°C cotton programme (partial load)	min	179		
Duration of the 'left-on' mode $(T_i)^6$	min	15		
Airborne acoustical noise emissions	11111	15		
Washing phase ⁷	dB(A) re 1 pW	46		
Spinning phase ⁷	() 1	40 72		
Built-in	dB(A) re 1 pW	12

Yes, standard feature

In kg of cotton for the standard "60 °C cotton programme "at full load or the "40 °C cotton programme" at full load, whichever is the lower.

Based on 220 standard washing cycles for cotton programmes at 60 °C and 40 °C at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used.

Based on 220 standard washing cycles for cotton programmes at 60 °C and 40 °C at full and partial load. Actual water consumption will depend on how the appliance is used.

Attained for the standard "60 °C cotton programme" at full load or the standard "40 °C cotton programme" at partial load, whichever is the lower, and remaining moisture content attained for the standard "60 °C cotton programme" at full load or the standard "40 °C cotton programme" at partial load, whichever is the greater.

these programmes are suitable to clean normally soiled cotton laundry and are the most efficient programmes in terms of combined energy and water consumption.

If the household washing machine is equipped with a power management system.

For the standard "60 °C cotton programme" at full load.
