

# Product fiche

Delegated Regulation (EU) 65/2014

|   |                           |
|---|---------------------------|
| Supplier name or trademark                                      | <b>BELLING</b>            |
| Model identifier  | <b>BEL FARMHOUSE X90G</b> |
| Number of cavities  | <b>2</b>                  |
| <b>Cavity 1</b>   |                           |
| Energy Efficiency Index   | <b>86,2</b>               |
| Energy Efficiency Class   | <b>A</b>                  |
| Energy consumption per cycle (conventional mode)                | <b>1,48 kWh</b>           |
| Energy consumption per cycle (conventional mode) (gas)          | <b>5,32 MJ</b>            |
| Energy consumption per cycle (fan-forced convection mode)       | <b>- kWh</b>              |
| Energy consumption per cycle (fan-forced convection mode) (gas) | <b>- MJ</b>               |
| Heat source   | <b>Gas</b>                |
| Volume  | <b>60 Litres</b>          |
| <b>Cavity 2</b>   |                           |
| Energy Efficiency Index   | <b>88,8</b>               |
| Energy Efficiency Class   | <b>A</b>                  |
| Energy consumption per cycle (conventional mode)                | <b>0,81 kWh</b>           |
| Energy consumption per cycle (fan-forced convection mode)       | <b>0,81 kWh</b>           |
| Heat source   | <b>Electric</b>           |
| Volume  | <b>86 Litres</b>          |
