

# Data sheet for household dishwashers

In acc. with delegated regulation (EU) No. 1059/2010

| Miele   |               |                 |  |
|---|---------------|-----------------|--|
| Model name / identifier   |               | G 4995 SCVI XXL |  |
| Rated capacity in standard place settings, for the standard cleaning cycle  |               | 14              |  |
| Energy efficiency class   |               | A++             |  |
| A+++ (most efficient) to D (least efficient)  |               | A++             |  |
| Annual energy consumption (AE <sub>c</sub> ) <sup>1</sup>   | kWh/year      | 266             |  |
| Energy consumption of the standard cleaning cycle (E <sub>c</sub> )   | kWh           | 0,94            |  |
| Weighted power consumption in off-mode (P <sub>o</sub> )  | W             | 0,20            |  |
| Power consumption in left-on mode (P <sub>i</sub> )   | W             | 2,00            |  |
| Weighted annual water consumption (AW <sub>w</sub> ) <sup>2</sup>   | Litres/year   | 2.772           |  |
| Drying efficiency class   |               | A               |  |
| A (most efficient) to G (least efficient)   |               | A               |  |
| Standard programme to which the information in the label and the fiche relates <sup>3</sup>   |               | ECO             |  |
| Programme time for the standard cleaning cycle  | min           | 196             |  |
| Duration of the left-on mode (T <sub>i</sub> ) <sup>4</sup>   | min           | 10              |  |
| Airborne acoustical noise emissions   | dB(A) re 1 pW | 45              |  |
| Built-in  |               | ●               |  |
| <p>● Yes, standard feature</p> <p><sup>1</sup> Based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used.</p> <p><sup>2</sup> Based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used.</p> <p><sup>3</sup> This programme is suitable to clean normally soiled tableware and is the most efficient programme in terms of combined energy and water consumption.</p> <p><sup>4</sup> If the household dishwasher is equipped with a power management system.</p> |               |                 |  |
