

Product Fiche according to Delegated Regulation (EU) 392/2012

Supplier name or trademark	Hoover
Model identifier	NDEH9A3TCBER80/N
Rated capacity (kg)	9
Type of dryer	Heat Pump Inverter
Energy efficiency class	A+++
Weighted Annual Energy Consumption (kWh/year) (1)	194
Automatic dryer	Yes
Energy consumption of the standard cotton programme (2) at full load (kWh)	1.59
Energy consumption of the standard cotton programme (2) at partial load (kWh)	0.87
Power consumption of the off-mode (W)	0.45
Power consumption of the left-on mode (W)	0.85
Duration of the left-on mode (min)	5
Weighted programme time of the standard cotton programme (2) at full and partial load (min)	166
Programme time of the standard cotton programme (2) at full load (min)	220
Programme time of the standard cotton programme (2) at partial load (min)	125
Condensation efficiency class on a scale from G (least efficient) to A (most efficient)	A
Average condensation efficiency of the standard cotton programme (2) at full load (%)	91
Average condensation efficiency of the standard cotton programme (2) at partial load (%)	91
Weighted condensation efficiency for the standard cotton programme (2) at full and partial load (%)	91
Sound power level (weighted average value in dB)	64
Built in / free standing model	Freestanding

1) Energy consumption in kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used.

2) The 'standard cotton programme' used at full and partial load is the standard drying programme to which the information in the label and the fiche relates; such programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton.
