

# Data sheet for household tumble driers

In acc. with delegated regulation (EU) No. 392/2012

| Miele                                                                                         |                           |                          |  |  |  |
|-----------------------------------------------------------------------------------------------|---------------------------|--------------------------|--|--|--|
| Model name / identifier                                                                       |                           | TSF643WP<br>EcoSpeed&8kg |  |  |  |
| Rated capacity <sup>1</sup>                                                                   | kg                        | 8,0                      |  |  |  |
| Type of tumble drier                                                                          | Air-vented / condenser    | – / ●                    |  |  |  |
| Energy efficiency class                                                                       |                           |                          |  |  |  |
| A+++ (most efficient) to D (least efficient)                                                  |                           | A+++                     |  |  |  |
| Weighted annual energy consumption (AE <sub>c</sub> ) <sup>2</sup>                            | kWh/year                  | 177                      |  |  |  |
| Tumble drier                                                                                  | Automatic / non-automatic | ● / –                    |  |  |  |
| Energy consumption of the standard cotton programme                                           |                           |                          |  |  |  |
| Energy consumption at full load                                                               | kWh                       | 1,44                     |  |  |  |
| Energy consumption at partial load                                                            | kWh                       | 0,82                     |  |  |  |
| Weighted power consumption in off-mode (P <sub>o</sub> )                                      | W                         | 0,40                     |  |  |  |
| Weighted power consumption in the left-on mode (P <sub>i</sub> )                              | W                         | 0,40                     |  |  |  |
| Duration of the 'left-on' mode (T) <sup>3</sup>                                               | min                       | 15                       |  |  |  |
| Standard programme to which the information in the label and the fiche relates <sup>4</sup>   |                           | Cottons with arrow       |  |  |  |
| Programme time of the 'standard cotton programme'                                             |                           |                          |  |  |  |
| Weighted programme time                                                                       | min                       | 121                      |  |  |  |
| Programme time at full load                                                                   | min                       | 155                      |  |  |  |
| Programme time at partial load                                                                | min                       | 95                       |  |  |  |
| Condensation efficiency class <sup>5</sup>                                                    |                           |                          |  |  |  |
| A (most efficient) to G (least efficient)                                                     |                           | A                        |  |  |  |
| Weighted condensation efficiency for the 'standard cotton programme' at full and partial load | %                         | 95                       |  |  |  |
| Average condensation efficiency of the 'standard cotton programme' at full load               | %                         | 95                       |  |  |  |
| Average condensation efficiency of the 'standard cotton programme' at partial load            | %                         | 95                       |  |  |  |
| Sound power level (L <sub>WA</sub> ) <sup>6</sup>                                             | dB(A) re 1 pW             | 66                       |  |  |  |
| Built-in                                                                                      |                           | –                        |  |  |  |

● Yes, standard feature

<sup>1</sup> In kg of cotton laundry for the standard cotton programme at full load.

<sup>2</sup> based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used.

<sup>3</sup> If the household tumble drier is equipped with a power management system.

<sup>4</sup> This programme is suitable for drying normal wet cotton laundry and is the most efficient programme in terms of energy consumption for cotton.

<sup>5</sup> If the household tumble drier is a condenser tumble drier.

<sup>6</sup> For the standard cotton programme at full load.
