³ Based on the standard 60°C cotton program at full load and the 40°C cotton program at partial load.

⁴ The standard 60°C cotton program and the standard 40°C program are the standard washing programmes to which the information in the label and the fiche relates. These programmes are suitable to clean normally soiled cotton laundry and are the most efficient programmes in terms of combined energy and water consumption.

⁵ In case there is a power management system.

⁶ Based on the standard 60°C cotton program at full load.

* Partial load is half of rated capacity.
